### Athlete Profile

- Craig's future goals and expectations are to move to Florida and wakeboard year round. He would also like to make it on the pro tour.
- Craig's reasons for being on the team are simple: "I love to ride with other people that push me and make me a better rider."
- The things that Craig brings to the team are humour, a good attitude, and a hard work ethic.
- There isn't one specific thing about wakeboarding that Craig loves because he loves it all except cold and rough water.
- Slider and Kicker experience: "check! Next question!"
- His most embarrassing moment was being on the dock with a super tangled rope.
- If Craig could bring 3 things to an isolated island, they would be a plane, food and water.
- If Craig could have dinner with anyone in the world, he would choose Albert Einstein.
- Craig is a trained national judge and snowboards at the national level.
